

MNG

GROUP OF COMPANIES

“ MNG Group of Companies has worked with the intention of creating added value to Turkey & the rest of the world and has been contributing to economic growth in Turkey since the very first day of its establishment. ”

Message From The Chairman

MNG, founded by me in 1976 with the initials of my name, turned into MNG Group of Companies which employs more than 20,000 people in various sectors including construction and contracting, energy, air transportation, tourism and finance.

The Corporate Group's construction projects volume reached USD 8.30 billion in Africa, Middle East, Balkans, Caucasus and USD 12.30 billion in Turkey.

I would like to express my sincere gratitude to our esteemed clients who trust our engineering knowledge and choose our firms to execute their contracts as well as my colleagues whose devoted efforts have made great contributions to the achievements of MNG Group of Companies.

Mehmet Nazif Günel

Istanbul New Airport Project, Phase I, Turkey

MNG Group Of Companies

MNG Group of Companies, currently a leader in all of the industries that it operates in, has worked with the intention of creating added value to Turkey & the rest of the world and has been contributing to economic growth in Turkey since the very first day of its establishment.

With its engineering backbone and entrepreneurial mindset spanning 42 years, MNG Group of Companies introduced many firsts in Turkey and has played an essential role in the country's global achievements in construction and contracting, hotel investments and management, energy production and marketing, local and international air transportation and finance.

The sum value of projects completed by the construction and contracting firms within the MNG Group of Companies reached USD 9.10 billion for completed projects and USD 11.50 billion for those that are in progress as of 2018.

Offering world-class services, Mapa Construction and Günel Construction companies specialize in construction and infrastructure work and are the driving forces of the industry as well as the Group.

Heydar Aliyev International Airport Terminal, Azerbaijan

Thanks to its expert team of specialists who embody an **engineering ethos** and the strength derived from its clients, MNG Group of Companies rapidly progressed in Turkey and abroad, with the company's equities reaching USD 1.20 billion, today.

Collaborating with its specializing contractor companies in the areas of geotechnical and piling works, mechanical - electrical - sanitary system installations and architecture and design, Mapa Construction and Günel Construction companies have completed many successful infrastructure and superstructure projects that include buildings, skyscrapers, industrial plants, dams, hydroelectric power plants and irrigation systems, tunnels, airports, highways and roads, concrete silos, waste water and drinking water treatment facilities, trade and commerce centers, hotels, holiday resorts, excavation works, ground stabilization and fundamental piling works.

Operating under the roof of MNG Group of Companies, MNG Airlines is the largest air cargo firm in Turkey with eight planes offering **flexible solutions** based on demand.

MNG Jet offers turnkey solutions in charter, operations, sales and maintenance of private jets with a dynamic and competent staff providing **expert services** and a **know-how** gathered through years of experience.

Setting the trends of the sector by completing Turkey's first thematic hotel project, Topkapı Palace, MNG Group of Companies offers **breath-taking** accommodation experiences for business and leisure travelers with "World of Wonders (WOW)" Hotels in Bodrum, Istanbul and Dubai that have a total capacity of 5000 beds, and brings a new dimension to the concept of travel agency by offering its superior experience in the sector with the diligence of boutique service with MNG Tourism.

A testimony to the entrepreneurial spirit of MNG Group of Companies, MNG Faktoring, contributes to the progress and development of the industries while increasing its competency in this sector and expanding its branch network across Turkey.

As a result of a well understanding of future trends combined with know-how and an analytical thinking approach, MNG Group of Companies continues its work in the renewable energy sector with its run-of-the-river hydroelectric power plant investments. The MNG Group of Companies completed seven out of ten hydroelectric power plants with an installed power capacity of 164 MW and a yearly electrical production of 950 Gwh, and is preparing to complete and present the remaining three to the Turkish public in the near future.

MNG Group of Companies believes that a strong and integrated management is the prerequisite to meet demands rapidly, accurately and in a sustainable manner. With projects completed successfully through its engineering ethos, meticulous approach to work and experience that spans over 42 years The Group provides a future vision to societies and individuals.

Areas of Activity

Construction & Contracting

Through its construction and contracting companies, MNG Group of Companies combines its half-a-century span of experience with its **meticulous engineering approach** to build the future. Via it's local and international building and infrastructure projects The Group determines the rules of the sector and creates high-quality added value.

Trabzon Motorway, Turkey

Mapa Construction and Günal Construction offer superior services for their clients in the public and private sector and increase the living standards of society and its individuals through innovative projects, becoming a driving force for economic development.

As the dynamos of the industry, Mapa Construction and Günal Construction are highly-praised and trusted by providing

world-class construction services to actualize projects that include real estate developments, industrial plants, dams, hydroelectric power plants, irrigation systems, tunnels, airports, highways and roads, concrete silos, waste and drinking water treatment facilities, trade and shopping centers, hotels, holiday resorts, ground stabilization and pile foundation works, using the latest technology. The Construction & Contracting Group

consists of companies that have an expertise in geotechnical and piling works, mechanical & electrical, plumbing installations & assembly and architecture & design services for actualizing dynamic, engaging, smart and contemporary projects.

- Kotoka International Airport Terminal, Ghana

MNG Esmas

MNG Esmas gains a competitive edge by integrating its years of experience with technology and offers engineering and contracting services in electrics & electronics.

The company, with its engineering skills and proactive working strategies, offers turnkey solutions in planning, consultancy and application services for business centers, hotels, holiday resorts, hospitals, power plants, substations, power transfer lines, pumping stations, water treatment facilities, grain silos, conveyor systems, electrification, automation and instrumentation of plant facilities, electrical infrastructure and implementation of low-voltage systems in buildings and residences.

With the support of the Group of Companies it is bound to, MNG Esmas continues to increase its brand awareness and reliability through its projects while expanding its market share in the industry.

MNG Tesisat

MNG Tesisat brings its long-established experience to all its projects and differentiates itself with its expert analyses that offer customized solutions to its clients' needs.

As an engineering and contracting company, MNG Tesisat offers turnkey solutions for project design and implementation of air-conditioning, heating, cooling, ventilation, sanitary installation, fire suppression and control, building automation, kitchen and laundry installation, medical gas systems, water treatment and chemical process systems in residences, hotels, holiday resorts, trade and shopping centers, hospitals, industrial plants and other structures.

MNG Zemtas

MNG Zemtas has been offering innovative solutions in soil & foundation engineering through geotechnical project design, survey and consulting for nearly a quarter of a century and provides an all-around service experience centered on speed, quality and reliability.

MNG Zemtas offers services in the following areas:

- Geotechnical project and consultancy services
- Soil & foundation engineering solutions and applications
- Vibrex and pile glide works with varying diameters and depths
- Pre-tensioned surface anchor and passive anchor works
- Ground reinforcement through micro-pile and jet-grouting

MNG Targem

MNG Targem was founded in 1985 in Ankara and continues to operate with an integrated design approach that combines **comfort, authenticity, quality and aesthetics**.

The company offers solution-focused design and consultancy services for architecture, interior design, landscape architecture and engineering projects through its experienced team and meets contemporary design requisites.

Actualizing projects that shape the world with its business vision, MNG Targem continuously develops its working methods in light of new technologies. On the other hand as an investor, constructor and contractor, MNG Group of Companies passes on its vast experience to MNG Targem to support the company in gaining a competitive edge in its sector.

Tourism

MNG Tourism

WOW Bodrum Resort, Turkey

Founded in 1999 as part of the MNG Group of Companies, MNG Tourism, is continually expanding its network of services through its Call Center as well as its authorized sales agencies and sales offices equipped with the latest technology, in Istanbul (Harbiye, Ataköy-Atrium, Şaşkınbakkal-Bağdat Caddesi, Tepebaşı), Eskişehir and Ankara.

MNG Tourism offers an all-around service experience by combining its **boutique**

approach to service with its working ethos that focuses on quality, speed and reliability, with an expert team that has a deep understanding of industry dynamics and customer expectations.

MNG Ticket offers 24/7 ticketing services while MNG Mice provides services in a broad spectrum of areas including events, motivational meetings and dealer incentive meetings.

WOW Hotels

MNG Group of Companies has started constructing touristic facilities in 1990 such as Ankara Hilton, Izmir Hilton, Magic Life der Club Kemer, Magic Life der Club World Kiriş. In 1999, the Group has built the “theme hotels” and started to operate them under the “World of Wonders” brand name.

World of Wonders (WOW) Hotels in Bodrum, Istanbul and Dubai offer breathtaking accommodation alternatives for business and leisure travelers with a total capacity of 5000 beds.

Air Transport

MNG Airlines

MNG Airlines, founded in February of 1996, began its scheduled cargo services to Hahn (Germany) and Stansted (England) with a mid-range Airbus A300 in February of 1996.

Today, it operates with a fleet of six Airbus A300-600 planes and one Airbus A330-243F aircraft.

MNG Airlines has gained a leading and respected position in the industry with its growing fleet and its philosophy of “**tailor-made service**”, which focuses on quality, reliability and customer satisfaction.

Dominating the market share in air cargo transport, MNG Airlines continues to expand its business by offering its customers chartered cargo services with alternative plane and capacity options in addition to its scheduled flights.

MNG Airlines has a fully equipped Exports Warehouse located 12 km from Istanbul Atatürk Airport. Fully compliant with EU standards, the warehouse is built on a 10,000 m² area, occupies a volume of 60,000 m³ and supports a 7,000 Euro-palette capacity. The MNG Warehouse operates under Istanbul Airport Customs and was commissioned in 2000 to enhance and bring the company's service capacities to the next level.

Aircraft Maintenance Hangar, Turkey

MNG Jet

MNG Jet offers turnkey solutions in charter, operations and maintenance and sales of private jets through its dynamic and competent team. With its long-established **experience** and know-how, the company offers specialized, **meticulous services** that grant it a leading position in the industry.

MNG Jet offers its customers a stress-free flying experience through its charter services that allow them to determine aircraft types and flying times for their travels. Customers who choose MNG Jet enjoy the comfort and luxury of personalizing all details regarding their jet lease.

MNG Jet is the leading business jet operator and maintenance provider in its current geographical position. Located in the company's new warehouse in Istanbul Atatürk Airport, it provides technical services for Challenger CL601/604/605, Challenger CL300, Global 5000/Express, Hawker 700/750/800/800XP/850XP/900XP, B737NG, BBJ and Airbus A300-600 aircrafts.

MNG Jet's maintenance operations are certified by the Directorate General of Civil Aviation in Turkey, EASA and authorities from 11 different countries. The company provides B1/B2 technical and hands-on training services for Challenger 601/604/605, Global Express/5000 and Hawker 700/750/800/800XP/850XP/900XP with SHY 147 approval.

MNG Jet also sells spare parts for private jets, Airbus A300, A310, A320, Boeing 737CL, 747 and MD80, and offers plane management services to its customers with its air-taxi operating services certification.

Sofia Ring Road, Bulgaria

Energy

MNG Group of Companies supports the belief that economic growth, social welfare and sustainable development are achieved through renewable energy investments. The Group has been using its engineering ethos to actualize exemplary projects in renewable energy production and its trade since 2004.

MNG Group of Companies continues to invest in run-of-the-river hydroelectric power plants. Seven out of the ten hydroelectric power plants with a total installed power capacity of 164 MW and a yearly electrical production of 950 Gwh have been completed, with the remaining three nearing completion in the near future.
